

When you leave the milk out on the bench

When you "squeeze the toothpaste wrong"

When you walk too slow, when you drive too fast

Forget to put the kettle on

When the sun shines through that broken fence

And yet still sets in the West

If you think of me, then maybe I'm still here

When you leave that hanger on the bed

When you wish you'd never asked

Shoes left on the floor, when your parking's poor

When you're taking out the trash

When you're getting ready for Saturday

To make yourself look nice

Think of me, and maybe I'm still here

What if people only leave if they won't be missed at all

Perhaps the others stay behind to catch us if we fall

What if every loved one's simply waiting for the call

Waiting, and waiting
